Points were assigned as 3 for first, 2 for second, 1 for third to either the east or west. In the many cases where					
either the east or west did not have 3 teams the maximum points available were either 2 (for 2 teams), or 1 (for 1 team)					
whichever the lesser side had. Note that some players elected to play for the west to achieve a closer quantity of players.					
(e)=east, (w)=west
